

Certificate of membership

ICC WCF International Certificate of origin (CO) Accreditation Chain

This is to certify that the Bulgarian Chamber of Commerce and Industry (BCCI) is a member of the ICC WCF International CO Accreditation Chain.

ICC WCF confirms that through the signing of the Certificate of Origin Protocol, BCCI accepts and abides by the principles as established in the ICC WCF International CO Guidelines.

Worldwide Chambers of Commerce are independent trusted third parties in the process of CO issuance. The CO Accreditation Chain is the quality label handed out to Chambers of Commerce who are working according to the ICC WCF International CO Guidelines.

The accredited chamber recognizes that in the event of differences between international and national CO procedures, its national laws and legislation shall apply.

As member of the CO Accreditation Chain, ICC WCF confirms that:

- BCCI benefits from the use of the international ICC WCF CO Accreditation label on each of its non-preferential CO forms, under its unique accreditation number: BG1400101;
- BCCI accepts that it is eligible to use the CO Accreditation label only upon the confirmation by ICC WCF, and take necessary actions with their Customs/official agencies to advise of its inclusion on CO forms;
- BCCI has access to the ICC WCF's CO verification website, which provides online confirmation on authenticity of CO issued by an accredited member, thereby ensuring quicker authentication processes and greater security against false documentation.
