A French start-up created in 2012 develops new therapeutic approach based on membrane receptor targeting and nanomaterials. The technology allows the targeting of drugs to lysosomes for therapies of lysosomal storage diseases or cancer.

The company would like to establish new partnerships to develop lysosomal disease treatments combining enzyme replacement therapy with other therapeutics (gene therapy, chaperone,...) in order to make a joint proposal for EJP RD JTC2020 call for project.

Deadline for EOI: 11 Feb 2020

Deadline of the Call: 18 Feb 2020

A Spanish engineering SME, which has developed a exoskeleton, is searching partners to submit an Eurostars proposal in order to develop a device for rehabilitation of patients who have suffered damage to their spine or brain for example after an ischaemic stroke. The SME is looking for two kind of partners: a health center with experience in rehabilitation to adapt the device and an engine manufacturer to design a suitable motor.

Deadline for EOI: 12 Feb 2020

Deadline of the Call: 13 Feb 2020
