A Spanish SME leads a proposal aimed to recover PU (polyurethane) from waste of the footwear industry. They search three partners with these roles: design, prototyping and manufacturing of elastomeric parts, pultruded composite profiles and molded composite parts; carbon footprint assays and life cycle assessment of the final products; production of footwear to validate the circular economy model. The proposal will be submitted to the LIFE subprogramme "Circular economy and quality of life".

Deadline for EOI: 30 Oct 2021

Deadline of the Call: 29 May 2022

A Spanish public institution (coordinator) is preparing a proposal "Deep underground geothermic potential survey in the area of Ascó" to the Call: HORIZON-CL5-2021-D3-03-15. The objective is to define the actual potential for the deployment and exploitation of a deep underground geothermal power plant in the area nearby to Ascó (Catalonia). Looking for technological partners for its deployment; especially with partners with a new technology to test and deploy in the geothermal field.

Deadline for EOI: 12 Nov 2021

Deadline of the Call: 23 Feb 2022
